DETAILED ACTION

The request for the extension of time and amendment dated 4-5-04 are acknowledged.

DECLARATION

A supplemental declaration identifying A SPECIFIC ERROR BEING CORRECTED must still be filed. Merely stating that claims are being added does not identify an error. No supplemental declaration has yet been provided.

Applicant's arguments have been fully considered, but are not found to be persuasive. The original declaration still does not point out a specific error. Merely presenting the claims to be added does not point out the error. The error to be pointed is how the added claims differ from the patented claims. In addition, the declaration is now defective since claims 16-32 have been canceled and thus the error that applicant purports to point out is not one being corrected.

In addition, since further amendments have been made, a supplemental declaration has to be submitted in accordance with MPEP 1414 and 1414.01.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 1-15 and 79-99 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The range of carbon atoms for R2 in claim 1 has been changed on line 14 (from 1 to 2), but not on the fourth line from the end.

This rejection is maintained since applicant has not amended the claim to correct R2 on the fourth line from the end of claim 1.

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

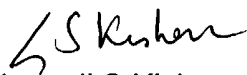

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
